

STATE *of* MINISTRY TO WOMEN

LEADERS REPORT

A survey of Evangelical and Black Protestant
women's ministry leaders

METHODOLOGY

- The online survey of 842 women's ministry leaders was conducted April 19–May 22, 2023.
- Sample lists of women who may have women's ministry roles were developed from Lifeway's ministry and sales lists.
- Each respondent was screened to ensure they are the women's ministry leader at their church and that their church is an evangelical or Black Protestant church in the U.S.
- Southern Baptist women's ministry leaders were oversampled. The 466 SBC responses were weighted down to reflect their correct proportion of evangelical and Black Protestant churches.
- Responses were weighted by church size, region, and religious tradition/denomination to more accurately reflect the population.
- The usable sample is 842 surveys with 733 answering all questions.
- The sample provides 95% confidence that the sampling error does not exceed $\pm 5.8\%$. This margin of error accounts for the effect of weighting.
- Margins of error are higher in sub-groups.

LIMITATIONS

Probability samples for evangelical and Black Protestant women's ministry leaders do not exist. When representative sampling is not possible, it is important to obtain as wide a variety of respondents as possible.

This study is limited to respondents or their churches who have interacted with Lifeway in some way in the last 3 years. Groups that interact with Lifeway less will be underrepresented in this study. Note that some groups are less represented because the scope of this study does not include churches that do not have women's ministry activities or a women's ministry leader.

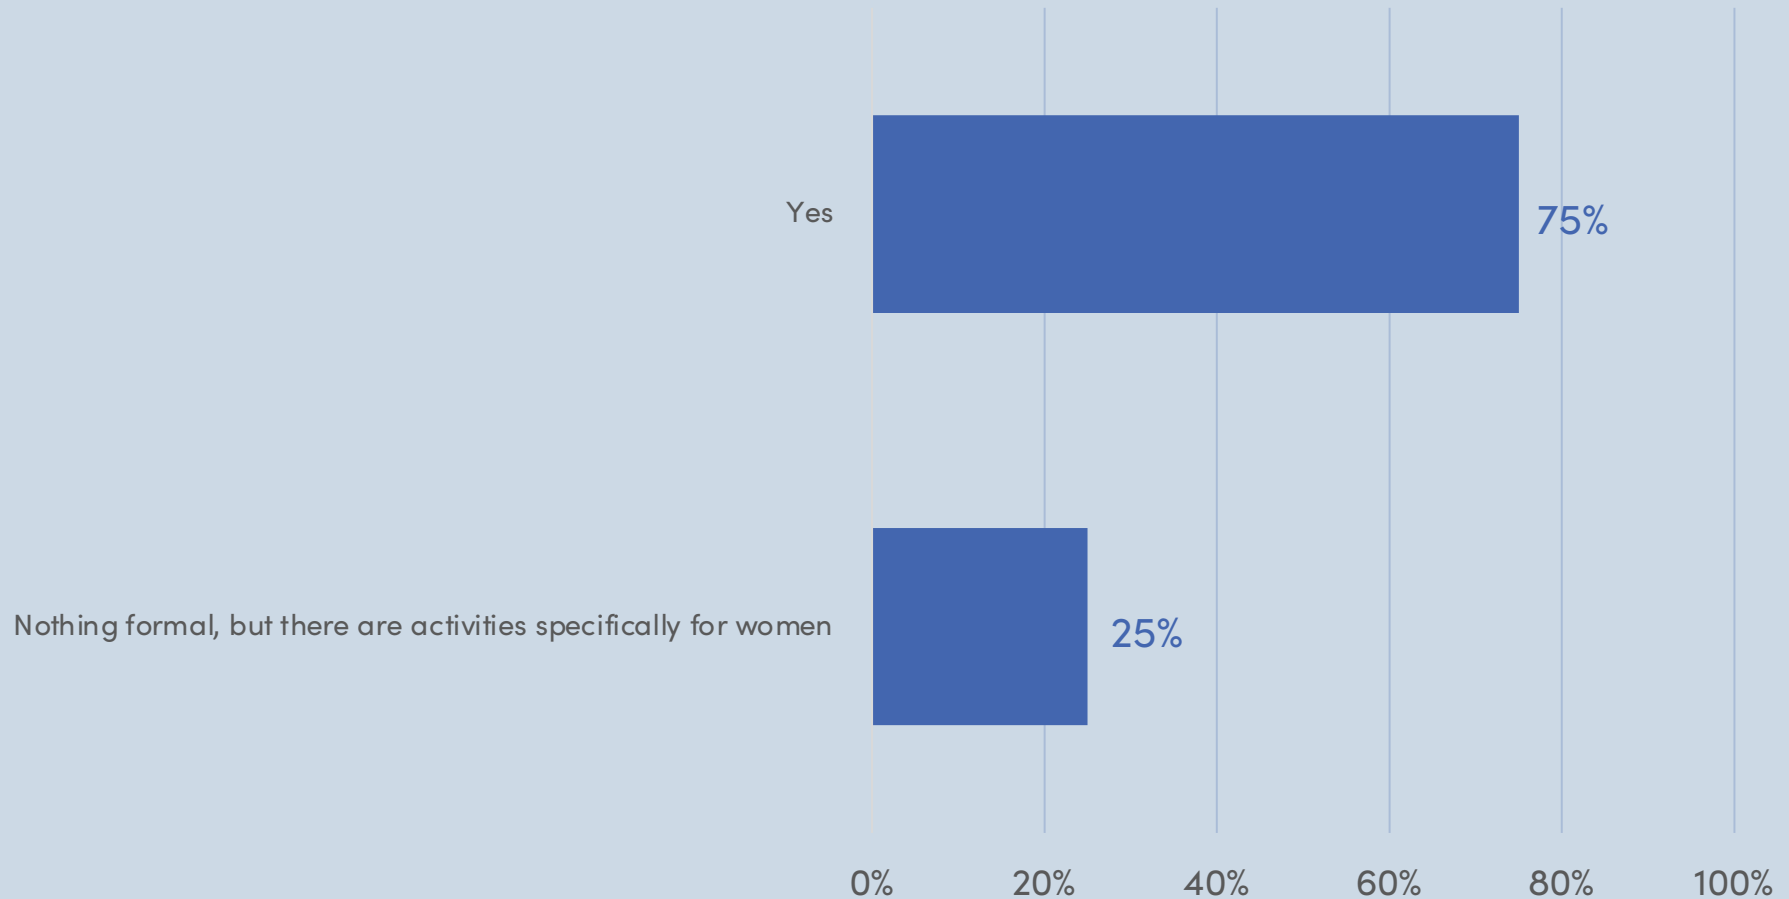

The variety included in this robust sampling effort is due to the many leadership and enrichment events, women's ministry products, survey research, and free church and women's ministry content that have led thousands of women to interact with Lifeway.

Indications of the breadth of the sample prior to weighting include:

- Sizes of churches participating (27% <100, 28% 100-249, 20% 250-499, 25% 500+)
- Ethnicity of leader (88% White, 6% African American, 3% Hispanic, 3% Other)
- Locations of churches participating (29% rural, 34% small city, 20% suburb, 18% large city)
- Ages of women's ministry leaders (6% 18-34, 28% 35-49, 37% 50-64, 29% 65+)
- Region of churches participating (4% Northeast, 19% Midwest, 61% South, 17% West)

75% of churches with activities specifically for women have an organized women's ministry

Among Women's Ministry Leaders
