NOTES:

- All information as of April 19, 2026.
- Some state conventions no longer use the designation of church-type mission to categorize congregations which are not self-determining, self-sustaining and self-propagating. This practice has impacted the number of churches and church-type missions.
- Total impacted by incomplete data from some state conventions. See body of table and notes for details. Care should be exercised in comparing SBC totals to previous years.
- Florida Baptist Convention did not ask Other Additions and Undesignated Receipts.
- Adjustments were made to state convention totals as detailed in footnote 10. Previous years' totals for this state convention had no adjustments. Care should be exercised in comparing totals to previous years.
- Baptist State Convention of North Carolina did not ask VBS Enrollment.
- Two state conventions exist within the state of Texas. The Texas summary line does not show the arithmetic sum of the two state convention figures because some congregations are related to both state conventions. Their numbers are reflected in the totals for both state conventions.
- Two state conventions exist within the state of Virginia. The Virginia summary line does not show the arithmetic sum of the two state convention figures because some congregations are related to both state conventions. Their numbers are reflected in the totals for both state conventions.
- This line includes four types of adjustments to the data:
 - The removal of duplicate data caused by 970 congregations that are related to more than one state convention.
 - The removal of data from 292 congregations affiliated with a state convention but not related to the SBC.
 - The addition of data from 1,346 congregations affiliated with the SBC but not related to a state convention.
 - The addition of data carried forward from previous ACP reporting cycles for 19,038 congregations that did not report an item in 2025.
- Adjustments to the national totals (and some state convention totals) include data carried forward for non-reported items from data reported in prior years.
 - Totals include carried forward Total Membership from the last year the congregation reported it.
 - Totals include carried forward In-Person Weekly Worship Average Attendance and In-Person Sunday School/Bible Study/Small Group Average Attendance from the most recently reported data from the prior two years.
 - Totals include carried forward Undesignated Receipts from the most recently reported data from the prior four years.
